Overview

Do you have questions about managing grasslands for wildlife? Do you participate in active land management for grasslands and associated wildlife? Interested in seeing the largest WRP project in the U.S.?

If so, this TWS continuing education workshop is for you! Researchers and experts will present the most current management techniques to enhance grasslands for wildlife, maintain a healthy mix of warm season grasses and forbs, and control invasive plants in grassland plantings. Participants will have ample opportunities to dialogue and interact with regional experts and see innovative establishment and management practices first hand.

Need TWS Continuing Ed Credit?

Receive credit for your efforts! While continuing to improve your knowledge and skills as a wildlife biologist, why not rack up continuing education credits that apply toward TWS's Certified Wildlife Biologist, Associate Wildlife Biologist, or the new Professional Development of Certified Renewal Certification?

This workshop is worth 7 contact hours toward reaching your goal. Questions? Talk to our continuing education representative during registration at the workshop.
